Fight

It's a human fault
won't and can't be sensible
won't and can't be responsible
I can't see I can't find
there will be another war again

And we fight tell me will it ever stop
and we fight we fight
and we fight we fight
and please let it stop

I don't see myself as a victim
I don't think the whole world is against me
I am a because so are you,
so are you, such as you

And we fight tell me will it ever stop
and we fight we fight
and we fight we fight
please let it stop

Afterwards the most of us feel sorry
expecting about what we've done wrong
but all the "I must I must have"
are just forming circles, circles

And we fight tell me will it ever stop
and we fight we fight
and we fight we fight
and please let it stop

The color of your skin

The color of your skin
the color of your eyes
The smile beyond them
Is what makes me love you,
is what makes me cry,
makes me cry

The color of your skin
the color of your eyes
the smile beyond them
is what makes me love you,
is what makes me cry,
makes me cry

The color of your skin
the color of your eyes
the smile beyond them
is what makes me love you,
is what makes me believe I could fly,
I could fly

Your skin,
your eyes and your smile

The color of your skin
the color of your eyes
the smile beyond them
is what makes me love you,
after time goes bye,
time goes bye
goes bye...

Outsider

no one hears when his feet touch the ground
nobody cares that he doesn't look up doesn't give up
a wall of fear followed around
a lonesome genius in his world

the guy with the light skin
and the whole secret within
with the empty eyes
behind the black hair strains
the guy with the light skin
and the whole secret within
with the empty eyes
behind the black hair strains
behind the black hair strains
behind the black hair

peculiar the world fits to him
like he's the shadow following his feet
caught in a maiden view
of a young dreamers head

how would I feel by infiltrating
this world reality
made in a human mind, closed in these eyes
under the mysterious flake of endless tears
of endless tears

the guy with the light skin
and the whole secret within
with the empty eyes
behind the black hair strains
the guy with the light skin
and the whole secret within
with the empty eyes
behind the black hair strains
behind the black hair strains
behind the black hair strains
behind the black hair

behind the black hair strains

Candlelight

Candlelight in my mind,
candlelight in my mind

When the first light runs over my skin
And the day is just awake from the night
the dream of you and me is falling apart again
my feelings for you

And when the candlelight falls against the wall
It seems to show your face
How does it feel
When your hands run through my hair
How did a feeling get so strong

I can see your face in my mind
imagine how you could smile for me
And I feel how my heart is getting warm
I feel my heart is getting warm

And when the candlelight falls against the wall
It seems to show your face
How does it feel
When your hands run through my hair
How did a feeling get so strong

I have an imagination of you in my head
I want to keep, I want to be real
My view of you the man I see in you
A longing for you to be here just for me

And when the candlelight falls against the wall
It seems to show your face
How does it feel
When your hands run through my hair
How did a feeling get so strong
in me

So alone

I should be a butterfly
to fly with you everywhere you are
to be with you all the time
there or here
not important at all, important at all

And I feel it seven days a week
twenty four hours a day
so alone, so alone
oh without you
Want to be the cloud there over your head
to follow you and keep the rain away
to be your smile as you always say
to be there over you when you sleep

just a little butterfly up in the sky

And I dream my dream of you
now at the moment
and all the time
missing you come, come,
come my little flower, come to me

And I feel it seven days a week
twenty four hours a day
so alone, so alone
oh without you
And I feel it seven days a week
twenty four hours a day
so alone, so alone
oh without you
And I feel it seven days a week
twenty four hours a day
so alone, so alone
without you

Cold

It's a feeling like being hurt by needles deep inside
Bad times of fever bad times for hope
It's cold really cold senseless maybe

It's loneliness burning in my eyes
But I can't find the one who sees
That's why I feel so cold

My skin burns wants to be touched
My body aches, wants to be hold
Feels empty only hope keeps my heart warm

It's loneliness burning in my eyes
But I can't find the one who sees
That's why I feel so cold

Do you feel cold, too?
The one who's crying through my dreams

It's loneliness burning in my eyes
But I can't find the one who sees
That's why I feel so cold

Nice days flowers around the hot sun on us
We both together Why can't it be like that?
Why can't you feel it, too?

It's loneliness burning in my eyes
But I can't find the one who sees
That's why I feel so cold

It's loneliness burning in my eyes
But I can't find the one who sees
That's why I feel so cold

Cold like that
Cold like that

Blue

Blue, blue
Blue shines the water over you

When they finally found your body
when the doctor said
"You should go home, maybe"
when the policeman turned away his head
I feel lonely

Blue, blue
Blue shines the water over you

When the watchers came to see
When people came up asking me
When they finally put the cloth
over your white face
I feel angry

Blue, blue
Blue shines the water over you

Don't ask me I will not let you go
I can't accept that
I can't accept that I can't accept that,
I was, I was wrong

Blue will the water shine over me too
Blue will the water shine over me too
over me too

Be me

Reminding tonight the dark wish was there again
I saw me in the biggest glamour light
and the others losing in the shadow of mine
I felt good and so damn ugly inside

There is a voice that says
Someday you're just like everybody else

You will not look better
You will not smell better
You will not say better
You're just like everybody else
I don't want to I don't want to be different
I just wanna be me, me

When I was young I dreamed of being a princess
or hold the greatest powers in my hands
I could make the stars explode
and everybody will look up to me
now I'm looking up searching

There is a voice that says
Someday you're just like everybody else

You will not look better
You will not smell better
You will not say better
You're just like everybody else
I don't want to I don't want to be different
I just wanna be me, me

oh why
oh why

The voice, the voice,
that voice said me

There is a voice that says
Someday you're just like everybody else

You will not look better
You will not smell better
You will not say better
You're just like everybody else
I don't want to I don't want to be different
I just wanna be me, me
me, me ,me

I don't want to I don't want to be different
I just wanna be me, me,
me...

Come Home

Day by day and night by night
it's getting colder in me my fear is rising
Would she be ok?

Come home my girl, come home,
come home to your family, come home,
Come home my girl, come home,
come home to your family, come home to me

The fear of never seeing her again the fear of not finding her
the hope to close her save in my arms
the pain of not knowing anything

Come home my girl, come home,
come home to your family, come home,
Come home my girl, come home,
come home to your family, come home to me

Seeing a shadow in the garden imagine it would be you
to find freedom again, to find freedom again
to know your ok

Come home my girl, come home,
come home to your family, come home,
Come home my girl, come home,
come home to your family, come home to me

Find the key

Try to find the key
to open your mind
to open your eyes
to open your soul
let it see more than your eyes can see alone

Try to find the key
to open your mind
to open your eyes
to open your soul
let it see more than your eyes can see alone

Try to find the key,
try to...

The day when I went down

The day when I went down
The day when I went down from my throne
The day when I went down
The day when I went down
The day when I went down from my throne
The day when I went down
The day when I left my crown behind

I can't remember that she was really angry
but I know how I hate myself right then
Now it's easy to see that everybody was in a fight with me
wasn't easy for me wasn't easy

The day when I went down
The day when I went down from my throne
The day when I went down
The day when I left my crown behind
The day when I went down
The day when I went down from my throne
The day when I went down

For me it's like the first breath to feel alive again
I feel the sun and I taste the rain and I said I feel alive again
I've found the way and I'm sure, yes I'm sure
that there will be more

The day when I went down
The day when I went down from my throne
The day when I went down
The day when I left my crown behind
The day when I went down
The day when I went down from my throne
The day when I went down

I feel the sun and I taste the rain
and I said I feel alive again, alive again
I feel the sun and I taste the rain
and I said I feel alive again, alive again

The day when I went down
The day when I went down from my throne
The day when I went down
The day when I left my crown behind
The day when I went down
The day when I went down from my throne

The day when I went down
The day when I went down
The day when I went down from my throne
The day when I went down
The day when I left my crown behind
The day when I went down
The day when I went down from my throne
The day when I went down
The day when I went down

See you again

The lightest blue doesn't reach me
The sun only comes to my skin
all this makes me so weird

And then I see you again
And the dark don't seems so dark anymore
And at least for a while
And at least as long as I see you smile

The sky turns black in my world
The rain to acid in my world
my feelings are mixed, taste so strange

And then I see you again
And the dark don't seems so dark anymore
And at least for a while
And at least as long as I see you smile

I wonder if, I wonder if this is me
in that moment I can see my face in your eyes
But the tiniest piece of sense makes me hope again

And then I see you again
And the dark don't seems so dark anymore
And at least for a while
And at least as long as I see you smile
And then I see you again
And the dark don't seems so dark anymore
And at least for a while
And at least as long as I see you smile
And then I see you again

And at least as long as I see you smile
And then I see you again
And the dark don't seems so dark anymore
And at least for a while
And at least as long as I see you smile

Lost Angeles

We lost Angeles the city of angels
We lost Angeles with the dizzily eyed dolls
the boulevards with the whole beauty and fiction

A city of hope
A city of trust
A city of love and pain
A city that we lost again
A city of hope
A city of trust
A city of love and pain
A city that we...

We lost Angeles the air that made famous

We lost Angeles the city of angels
We lost Angeles with the dizzily eyed dolls
the boulevards with the whole beauty and fiction

A city of hope
A city of trust
A city of love and pain
A city that we...
A city of hope
A city of trust
A city of love and pain
A city that we...
A city of hope
A city of trust
A city of love and pain
A city that we...

Meant to die

It's not your fault
How could it?
Our love was meant to die

Don't want to see tears in your shiny eyes
they are too beautiful to cry
there's no need to explain our lies
cause that's so far away
like us both now after all
No I don't want you to hate yourself

It's not your fault
How could it?
Our love was meant to die

Of cause we will stay friends
friends for all the time in our lifes
maybe in the future we will see the sense
hey look at me, listen to me,
please do not blame yourself
our feelings we couldn't rescue them,
couldn't rescue them

It's not your fault
How could it?
Our love was meant to die

Now give me your hand
Promise me you will try to forgive me
Look at me and tell me that you understand
Love will come to you again, you will see
And I'm no longer in your heart
punishing you so deep inside your soul

It's not your fault
How could it?
Our love was meant to die

So give me a last kiss to carry our love to grave
there will always be a place in me just for you
Never I will forget this love now gone,
now gone, now gone...

Lose you

The rose was red
when I left it on your stairs
Your eyes were so tired
When you looked at me the last time

Felt so cold
And I still do
When I think about
What happens to you

Somehow I know I was about to lose you
Lose you
