

## *I wish*

I don't know what to feel now,  
I can't see myself anymore.  
There's nobody to adore.  
I don't know if it's right for me  
and what I wanted to be.

I wish I was dead,  
somehow I wish I could be somebody else.  
But you don't care,  
you don't care, yeah, yeah.

Get out of my,  
get out of my head!

Tears are crashing my heart apart,  
looking up to the ground.  
Are you aware of it at all?  
The nights I will went,  
the days I will lay me down.

I wish I was dead,  
somehow I wish I could be somebody else.  
But you don't care,  
you don't care, yeah, yeah.

Get out of my,  
get out of my head!

Get out of my,  
get out of my,  
get out of my head!

Get out of my,  
get out of my,  
get out of my head!

Tears are crashing my heart apart,  
looking up to the ground.  
Are you aware of it at all?
